

# PHYSICIAN'S STRENGTH™

*Nutritional support  
for a lifetime of good health*

**P**hysician's Strength supports doctors around the world in their mission and ours to 'Heal the World and Make it a Better Place. That begins with honesty, integrity, and a promise to do no harm. Thus, at Physician's Strength we begin with the finest ingredients that Nature provides. Ingredients from wild plants are far more biologically active and potent than farm raised plants, even organic because wild plants must fight to survive the perils of the wilderness. This struggle against Nature is why wild plants retain their powerful nutrient-rich profile, whereas cultivated plants are always weaker. However, when wild is unattainable or endangered, the best biodynamic and organic sources are the next option for supplements that supply what bodies need. At Physician's Strength, no dyes, fillers, synthetics, or thousands of chemicals commonly used in food and nutritional supplements are ever used in the formulations or production of the products that our doctors provide for their patients. Therefore, the greatest benefits are derived from researched and guaranteed nutritional supplements.

Research is the backbone of product efficacy and dependability; published studies in Molecular and Cellular Biochemistry and Antiviral Research are available. That's why our scientific studies are important. For example, studies show that spice oils are formidable for supporting the immune system and full-body health and are unmatched by many other dietary ingredients. Further, the plants used in production are hand-picked in the high Mediterranean mountains, Peruvian Amazon, the far northern reaches of Canada, and areas away from human pollution and activity. These products are all additive-free, hypoallergenic, and, yet, retain the highest efficacy. Whole food Physician's Strength vitamins, such as Potent Pak, are highly nourishing and essential for good health. As an experienced Master Nutritionist and Formulator, I believe synthetics are not desirable for peak performance and the finest degree of physical and mental health. Physician's Strength's unique formulations and exceptional ingredients are the powerful tools doctors and practitioners can depend on for their patients' finest health benefits.

## AdrenoPower 120ct vegi capsules

A unique formulation containing pure royal jelly, wild mountain-grown Mediterranean rosemary, and sage, plus pantothenic acid (Vitamin B5) and Camu Camu berry (Vitamin C complex). These ingredients support the endocrine system, specifically the adrenals. Most commercial types of royal jelly get diluted and are 3 to 5 times weaker. The added sage and rosemary support adrenal steroid synthesis. The Royal jelly is also a potent brain food because of the 17 amino acids and B complex, supporting mental energy.

## Black Seed Cardio Power 8 fl oz.

Nothing can match Black Seed Oil Cardio Power for heart and arterial support. Black Seed oil alone is a powerhouse for a healthy blood pressure and cholesterol response, supporting circulation and normal heart muscle function. Mediterranean pomegranate also provides ellagic and punicalagin fruit acids. These acids support the natural cleansing and scrubbing of our arterial network, which in turn supports healthy blood flow throughout the body. Muscadine grapes are among the highest food sources of resveratrol, an essential antioxidant for supporting all cardiac muscles and circulation response. Shake well before each use.

## Polar Vite 60 ct soft gels

A wild line-caught Alaskan sockeye salmon fish oil, rich in natural vitamin A, D, astaxanthin, and complete omega fatty acid spectrum. The soft gels provide benefits without the taste and are an excellent source of highly absorbable DHA and EPA. Our salmon is always unrefined and triple-tested for heavy metals, radiation, and other contaminants. Only the omega 3 rich brains are selected for use instead of the livers, the area of the fish most likely to harbor toxins. Sockeye salmon species contain the highest amounts of the most potent antioxidant of the sea, Astaxanthin.

## Power C 90ct vegi capsules

A unique, freeze-dried Vitamin C, always whole-food sourced, ensuring potency and high quality. The bio-availability of Power C is at its best because of its preservation in a raw, natural state. Since no heat is involved in our manufacturing process, all enzymes are left perfectly intact, including valuable antioxidants, fiber, bioflavonoids, and polyphenols. The immune-supporting antioxidant quercetin is also readily available in this Power C formula. Since it is a complete vitamin C complex, there is no need for thousands of milligrams of ascorbic acid, a cheaper synthetic that is more difficult to absorb.
