

Collagen+™

Multi-Faceted Collagen System

Joint, Muscle, and Skin Synergy

A complete collagen delivery system — not just another powder.

Most collagen powders give you peptides and hope for the best. Collagen+ is formulated with the co-factors your body actually needs to absorb and utilize collagen — delivering 11g of bio-available collagen per serving from grass-fed, pasture-raised sources.

Why Collagen+ is different

Real Camu Camu Vitamin C

Vitamin C is required for collagen synthesis — yet most powders skip it or use synthetic ascorbic acid. Collagen+ includes whole-food vitamin C from raw Camu Camu berry for real, bio-available support.

Bromelain Enzymes for Absorption

Collagen is a protein — and undigested protein is wasted protein. Bromelain enzymes break down collagen peptides so your body can actually absorb and use them, not just pass them through.

Eggshell Membrane - Types III & V

Most products stop at Types I & II. Collagen+ adds eggshell membrane for Type III and V collagen - critical for skin elasticity, connective tissue resilience, and full-spectrum structural support..

Supports Full Body Cellular Health*

- Connective tissues & joints
- Bones & bone mineralization
- Skin, hair & nails
- Muscle mass & recovery
- Blood vessel strength
- Gut health & digestion

NON GMO • SUGAR FREE • GRASS FED • PASTURE RAISED • DOCTOR'S FORMULA
